

10th March 2023

Dear Parent/Carer,

On Tuesday, we had an assembly with the pupils hearing from The Schools Energy Project about the many different ways that we can all save energy. We are also extremely lucky to have been given a large batch of Thermometer Cards, with enough cards for us to put one in every classroom and office in our school, plus enough for every family to be given one to use at home. Your Thermometer Card is coming home with your child today.

The Schools Energy Project has also provided us with the attached fun Family Activity Sheet, for you to enjoy doing with your child as you use your free Thermometer Card around your home. Do please return your child's completed Activity Sheet to their teacher by email or on paper as the Schools Energy Project tells us that the school which collects the most completed Activity Sheets will win funds to help save more energy, so we would love you to help us win this competition!

As you can imagine, our school budgets are being very tightly squeezed this winter due to the energy price rises and general inflation, so we are particularly keen to save as much energy at school as we can. We would therefore be delighted if you could support our efforts by reinforcing your child's energy-saving habits at home so that our job at school is made a little easier!

For lots more useful information on energy-saving, including a Top Tips leaflet, you can visit www.schoolsenergyproject.org.uk.

If you are also interested in helping us at school with our energy-saving efforts, we would love to hear from you. Please get in touch via the school office.

Yours sincerely

Jo Randall
